

## Tamarind Village achieved “Travelife Gold Certification”

July 2025 - Chiang Mai, Thailand - We each set out on our journeys for different reasons — yet so often, we share the same joy: the thrill of experiencing something new and unique. It may be meeting warm-hearted people, learning from rich traditions, standing in awe of breathtaking landscapes, or discovering the wonders of wildlife. These moments are what make travel truly unforgettable.

At Tamarind Village, we believe that such beauty deserves to be protected. That is why we go beyond creating memorable stays — we embrace sustainability as a way of life. From caring for the environment and supporting local communities to protecting children and human rights, championing local businesses, and celebrating the cultural heritage of Chiang Mai, every choice we make is guided by responsibility and respect.

Today, we are proud to share a milestone in this journey: **Tamarind Village has achieved the “Travelife Gold Certification”** — a mark of excellence in sustainable tourism. This recognition affirms our commitment, but more importantly, it invites every guest to be part of something greater: preserving the wonders that make travel meaningful for generations to come. When you stay with us, you don’t just visit but you help protect, help sustain and help to keep the world’s treasures alive.
